 Sharanaliimam2019@gmail.com

 90, Crescent Road, Kathalbagan, Dhanmondi, Dhaka. Bangladesh

## Skills

- Python
- Java
- JavaScript
- Web/Software Frameworks: React, Node.js, Django
- Databases: SQL, MySQL,
- MongoDB

## Language

- English
- Bengali
- Italian (beginner level)

## Education

- **SSC (2019)**  
**YWCA Higher Secondary Girls School**  
**Science**  
**GPA : 5.00**
- **HSC (2021)**  
**Dhaka City College**  
**Science**  
**GPA : 5.00**
- **Bachelor**  
**BRAC University**  
**Computer Science**  
**CGPA: 2.7 (unofficial)**

## Experience

During my coursework, I completed several hands-on projects that strengthened my technical and design skills. I developed a Blogging App using Python and mysql, featuring user authentication, post creation, and an intuitive interface. I also created a Coffee House website focused on responsive design and smooth navigation to enhance user experience. Another project, Study-Hive, was a learning platform where students could share study materials and resources efficiently. Beyond web development, I explored graphics programming — my final project was a 3D Snake Game built with Python and OpenGL, showcasing 3D rendering and interactive gameplay. These projects helped me build a strong foundation in frontend design, backend logic, and user-centered development.

### (2026) 3month Internship

#### SOFTWARE TECH

Dohatech, Dhaka, Bangladesh

- Worked in a group for upcoming projects
- Worked in an individual module in a multi-level module-based project
- Worked on frontend design with Angular
